HOW IT WORKS

How to Build a Budget *That Actually Sticks*

Most budgets fail because they're too rigid. Here's a flexible, 5-step system used by over 40,000 of our readers to finally get their spending under control.

> 💡 PRO TIP
> Automate your savings on payday — before you can spend it. Even $25/week becomes $1,300/year without thinking about it.

01 Calculate Your After-Tax Income

Add up all income sources: salary, freelance, side hustles. Use your net (take-home) pay, not gross.

02

Track Every Expense for 30 Days

Use a free app like Mint or a spreadsheet. You can't fix what you can't see — this step is non-negotiable.

03

Categorize & Set Spending Limits

Use the 50/30/20 rule as a starting point: 50% needs, 30% wants, 20% savings & debt repayment.

04

Automate Your Savings First

Set up automatic transfers to your savings account on payday. Pay yourself before anything else.

05

Review & Adjust Every Month

Life changes — your budget should too. A monthly 15-minute review keeps everything on track.

📋 What You'll Learn

- ✅ 8 real ways to make money online from Ghana
- ✅ Which methods work best with mobile data only
- ✅ How to receive payments via MTN MoMo, Vodafone Cash & bank transfer
- ✅ Where to find your first clients or customers
- ✅ How much you can realistically earn as a beginner

METHOD 01

💻 Freelancing on Fiverr & Upwork

Freelancing is one of the fastest ways to start earning online — and you can start with skills you already have. Writing, graphic design, video editing, data entry, social media management, translation — all of these are in high demand globally.

How to start: Create a free account on **Fiverr.com** or **Upwork.com**. Write a clear profile explaining what you offer. Create your first "Gig" (Fiverr) or proposal (Upwork). Start with a low price to get your first reviews, then raise

your rates.

💰 **Earning potential:** GHS 500 – GHS 5,000+/month depending on skill and consistency. Writers and designers regularly earn $200–$800/month within 3–6 months.

METHOD 02

📱 Sell on Jumia & Tonaton

Jumia Ghana and Tonaton are Ghana's biggest online marketplaces. You can sell physical products (clothes, electronics, handmade items) or even digital products (eBooks, templates, printables) with zero startup cost.

How to start: Sign up as a seller on **jumia.com.gh** or list items free on **tonaton.com**. Take clear photos with your phone, write honest descriptions, and set competitive prices. You can start by reselling items or making simple handmade crafts.

💰 **Earning potential:** GHS 300 – GHS 3,000+/month. Reselling popular items like phone accessories or fashion can earn consistent side income.

METHOD 03

✍️ Start a Blog or YouTube Channel

Content creation takes time to grow, but it pays you repeatedly. A blog or YouTube channel about topics you know — Ghanaian food, student life, local travel, tech tips, football — can earn through Google AdSense, sponsorships, and affiliate links.

How to start: Start a free blog on **Blogger.com** or **WordPress.com**. Post consistently (2–3 times per week). Apply for Google AdSense once you have 20–30 posts. For YouTube, you need 1,000 subscribers and 4,000 watch hours to monetize — aim to post weekly.

⏳ **Note:** This method takes 6–12 months to earn significantly, but once it works, it earns while you sleep. Best combined with another method below while you grow.

METHOD 04

🎨 Sell Digital Products (eBooks & Templates)

Create once, sell forever. Digital products like eBooks, CV templates, business plan templates, or study notes require no inventory and no shipping. You make them once and keep earning.

How to start: Use free tools like **Canva** to design an eBook or template. Sell on **Selar.co** (popular in Ghana/West Africa), **Gumroad.com**, or WhatsApp directly. Price between GHS 20–200 depending on the value. Promote through TikTok, Instagram, or Facebook groups.

> 💰 **Earning potential:** GHS 200 – GHS 2,000+/month. A GHS 30 eBook sold to 50 people = GHS 1,500 with zero extra work.

METHOD 05

📣 Social Media Management for Local Businesses

Most small Ghanaian businesses (salons, restaurants, shops) have no time to manage their Instagram or Facebook pages. If you understand social media, you can charge GHS 200–800/month per client to handle their pages.

How to start: Pick 2–3 local businesses near you. Create sample posts for them using Canva for free. Send a WhatsApp message offering to manage their social media for a trial month. Get 3 clients and you have a part-time income.

> 💰 **Earning potential:** GHS 600 – GHS 3,000/month with 3–5 clients. This scales well as you build a portfolio.

METHOD 06

👩‍🏫 Online Tutoring

If you're good at a subject — Maths, Science, English, Accounting — you can tutor other students online via WhatsApp video call, Zoom, or Google Meet. Parents across Ghana are actively looking for affordable tutors.

How to start: Post in Facebook groups like "Ghana Students" or "Accra Parents Network." Charge GHS 50–150 per hour session. You can also list yourself on **Preply.com** to tutor international students in English or other subjects for USD payments.

💰 **Earning potential:** GHS 400 – GHS 2,500/month. International tutoring on Preply can pay $10–25/hour in USD.

METHOD 07

🔗 Affiliate Marketing

Affiliate marketing means promoting other people's products and earning a commission when someone buys through your link. You don't need your own product — just an audience or a WhatsApp group.

How to start: Sign up for **Jumia Affiliate Program** (jumia.com.gh/affiliate), **Selar.co** affiliate program, or international programs like Amazon Associates. Share your unique link on WhatsApp, Facebook, TikTok or a blog. Every sale earns you 5–15% commission.

💰 **Earning potential:** GHS 100 – GHS 2,000+/month. Best combined with a blog or active social media following.

METHOD 08

📊 Data Entry & Virtual Assistant Jobs

If you can type fast and use Microsoft Word or Excel, data entry and virtual assistant jobs are a great starting point. These require no special skills and pay in USD via PayPal or Payoneer.

How to start: Sign up on **Fiverr.com**, **PeoplePerHour.com**, or **RemoteAfrica.com**. Search for "data entry" or "virtual assistant" jobs. You can also find remote VA jobs on LinkedIn by searching "virtual assistant Ghana remote."

💰 **Earning potential:** $3–$10/hour ($100–$400/month part-time). Great starting point while you build bigger skills.

💳 How to Receive Your Money in Ghana

Getting paid internationally is easier than you think. Here are the best options:

📲

MTN MoMo

Best for receiving local GHS payments from Ghanaian

🌍

Payoneer

Best for receiving USD/EUR from Fiverr, Upwork, or

clients. Free to register.

international clients. Free account, withdraw to GHS bank.

💵

Chipper Cash

Send/receive money across Africa and internationally. Supports GHS and USD. Great for digital product sales.

🏦

Local Bank Transfer

GCB, Ecobank, Fidelity — all accept transfers. Ask clients to pay to your account number directly.

🚀 Which Method Should You Start With?

Method	Startup Cost	Time to First Income	Best For
Freelancing (Fiverr)	Free	1–4 weeks	Creative/tech students
Social Media Mgmt	Free	1–2 weeks	Outgoing, social students
Online Tutoring	Free	Days	Strong in any subject
Digital Products	Free	1–3 weeks	Creative, patient students
Selling on Jumia	Small capital	1–2 weeks	Business-minded students
			Long-term passive

Blogging/YouTube	Free	6–12 months	income

🎯

Our #1 Recommendation for Ghanaian Students

Start with **freelancing on Fiverr** for quick income, and **start a blog** on the side for long-term passive income (and AdSense revenue). Do both together from Day 1.

SAVING MONEY | 🇬🇭 GHANA STUDENTS | April 18, 2026 · 8 min read

How to Save Money as a Student in Ghana *(Proven Tips)*

> Living on a student allowance in Ghana is a real challenge. Between transport, food, data, and school expenses, money disappears fast. These 10 proven tips will help you keep more of what you have.

1

Track Every Pesewa You Spend

Download a free app like **Money Manager** or simply use a notebook. Write down everything you spend for 2 weeks. Most students are shocked to see how much goes on airtime, data, and snacks. You can't save what you can't see.

2

Use MTN MoMo or Vodafone Cash to Save

Create a separate MoMo wallet and transfer a fixed amount every time money comes in — before you spend a single pesewa. Even GHS 20/week becomes GHS 1,040 in a year. Treat savings like a bill you must pay first.

3

Cook Your Own Food on Campus

Buying food from canteens daily can cost GHS 20–40/day. Cooking even 3–4 days a week can save GHS 200–400/month. Buy ingredients in bulk from the market — it's significantly cheaper than buying small quantities from campus shops.

4

Share Costs With Friends

Share Costs With Friends

Split Netflix, Spotify, and data bundle costs with roommates or close friends. Share transport (trotro/Uber) to the same destination. Buy bulk items together at Makola market and split. Collective spending is one of the oldest money hacks in Ghana.

5

Use a "Susu" Savings Group

A Susu (rotating savings club) is a traditional Ghanaian savings system. You and a group of friends each contribute a fixed amount weekly or monthly. Each person gets the full pot in rotation. It's free, social, and forces consistent saving — especially if you lack discipline alone.

6

Cut Data Costs — Use Wi-Fi Strategically

Download everything — YouTube videos, WhatsApp media, lecture notes — when you're on campus Wi-Fi. Use data bundles only for communication. Stream nothing on mobile data. This alone can save GHS 50–100/month for the average student.

7

Avoid Impulse Buying — Use the 24-Hour Rule

Before buying anything that's not food or transport, wait 24 hours. If you still want it the next day, it might be worth it. If you've forgotten about it — you just saved money. Most student spending is emotional, not planned.

8

Set a Weekly Spending Limit

Divide your monthly allowance by 4 and give yourself only that amount per week. Keep the rest locked in MoMo or a separate account you don't carry your card for. When the weekly money is gone — it's gone. This stops end-of-month crises.

💡

Golden Rule for Ghanaian Students

Save **10% of every amount** that comes in — allowance, birthday money, side hustle income, everything. Small consistent amounts build big savings over time.

SIDE HUSTLES 🇬🇭 LOW CAPITAL April 18, 2026 · 9 min read

Best Side Hustles for Students in Ghana *(Low Capital)*

🍱

1. Sell Food on Campus

Cook jollof, fried rice, waakye, or pastries from your room and sell to classmates. Start with GHS 50–100 in ingredients. Many students earn GHS 500–1,500/month this way.

Startup: GHS 50-100

💇

2. Hairdressing & Braiding

If you can braid, do natural hair, or offer barbing services — advertise in your hostel WhatsApp group. Charge GHS 30–150 per service. Zero startup cost if you already have the skill.

Startup: GHS 0

📸

3. Phone Photography

🖨️

4. Printing & Binding

Many students need professional-looking photos for LinkedIn, CVs, and social media. Charge GHS 50–150 per session using your phone. Promote on campus notice boards and WhatsApp.

`Startup: GHS 0 (use your phone)`

Service

Students constantly need assignments, theses, and notes printed. Partner with a print shop off-campus, collect orders from classmates, and earn a GHS 1–2 commission per job. No capital needed.

`Startup: GHS 0`

📦

5. Campus Delivery Service

Offer to pick up food, items, or packages for students who are busy. Charge GHS 5–15 per delivery. On a large campus like UG or KNUST, this can be very lucrative during exam season.

`Startup: GHS 0`

✍️

6. Assignment & Typing Help

Offer typing, proofreading, or research help services. Many students — especially first-years — will pay GHS 20–80 for help with assignments, CVs, or cover letters.

`Startup: GHS 0`

👕

7. Sell Thrifted / Custom Clothes

Buy affordable clothes from Kantamanto or Makola market and resell to students on WhatsApp or Instagram. With GHS 100 starting capital, many students flip this into GHS 400–800/month.

`Startup: GHS 100-200`

🎨

8. Graphic Design (Canva)

Learn Canva for free in 2 days. Then design flyers, social media posts, and logos for student groups, campus businesses, and churches. Charge GHS 30–150 per design.

`Startup: GHS 0`

📱

9. Phone Repair (Basic)

Learn basic phone repairs — screen replacements, charging port fixes, software resets — from free YouTube tutorials. Buy tools for GHS 50–100. Students will pay GHS 30–150 per repair.

`Startup: GHS 50-100`

🎓

10. Peer Tutoring

If you're strong in Maths, Science, Accounting, or English — tutor junior students or secondary school pupils in your area. Charge GHS 50–150/session. Post on community Facebook groups to find clients fast.

START A BUSINESS 🇬🇭 ZERO CAPITAL April 18, 2026 · 10 min read

How to Start a Business With No Money in Ghana

> The biggest lie about entrepreneurship in Ghana is that you need money to start. The truth? Your first business can start with GHS 0 — if you follow the right model. Here's exactly how.

📢 Advertisement

01 Start a Service Business — Not a Product Business

Product businesses need inventory. Service businesses only need your skills and time. If you can write, design, teach, clean, cook, repair, manage social media, or translate — you already have everything you need to start. Identify your #1 skill and build a service around it.

02 Use WhatsApp as Your Free Shop

You don't need a website, shop, or registration to start selling in Ghana. WhatsApp Business is completely free and lets you create a product catalogue, display prices, and receive orders. Set up your free WhatsApp Business profile today — it takes 10 minutes.

03 Get Paid Before You Deliver

This is the secret to starting with no money. Ask for 50–100% payment upfront via MoMo before you buy any materials or start any work. Use their money to deliver their order. This is how most small Ghanaian food, fashion, and printing businesses work. No risk, no capital needed.

---

04 Build a Portfolio With Free Work First

If no one knows your work, do 2–3 small jobs for free for friends or local businesses in exchange for a testimonial and permission to share photos. Once you have 3 satisfied customers sharing your work, charging real money becomes easy. Your portfolio is your currency when you have no money.

---

05 Use Free Tools to Run Your Business

Canva (free design), **Google Docs/Sheets** (free invoicing & records), **WhatsApp Business** (free shop), **Facebook/Instagram** (free marketing), **MTN MoMo** (free payments). You have everything you need to run a professional business at zero cost.

---

06 Reinvest Your First Profits

When you earn your first GHS 100–500, resist the urge to spend it. Reinvest 70% back into the business — buy better tools, stock, or advertising. Keep 30% for yourself. This is how a GHS 0 business becomes a GHS 1,000+/month business within 3–6 months.

💼

APP #1

Fiverr

FREE

Fiverr is the world's largest freelance marketplace. You create a "Gig" offering any skill — writing, design, voiceover, translation, data entry — and clients from around the world pay you in USD.

How to use it in Ghana: Download the Fiverr app (free on Android/iPhone). Create your profile. Set up a Gig starting at $5. Receive payments to your Payoneer or bank account.

💰 **Potential:** $50–$500/month for beginners. Top Ghanaian sellers earn $1,000+/month.

🛒

APP #2

Jumia

FREE

Jumia Ghana is Africa's biggest online marketplace. You can sell physical products (clothes, electronics, accessories) as a vendor, or earn commissions through the Jumia Affiliate program without selling anything yourself.

Affiliate option: Sign up at jumia.com.gh/affiliate for free. Share product links on your WhatsApp or social media. Earn 3–9% commission on every purchase made through your link.

💰 **Potential:** GHS 200–2,000+/month depending on traffic. Best combined with a blog or large WhatsApp group.

🎨

APP #3

Canva

FREE

Canva is a free design tool you can use on your phone. In 2 days you can learn to design professional flyers, logos, social media posts, and business cards. Then sell those designs to local businesses, churches, and schools.

How to earn: Learn Canva free on YouTube. Offer flyer design for GHS 30–80 each. Churches, schools, and small businesses are your best clients. Advertise in community Facebook groups.

💰 **Potential:** GHS 300–1,500/month doing 10–20 designs. Also use Canva to create digital products to sell on Selar.co.

📲

APP #4

Chipper Cash

FREE

Chipper Cash is not just for sending money — it's a business tool. Use it to receive payments in GHS, USD, and other currencies from clients across Africa and internationally. No bank account needed to get started.

How to use it: Download free, verify your ID, and share your payment link with clients. Perfect for freelancers, digital product sellers, and anyone getting paid by international clients or from other African countries.

✅ **Best for:** Receiving payments from clients in Nigeria, Kenya, UK, USA, and across Africa with low fees.

🛍️

APP #5

Selar

FREE

Selar.co is Africa's most popular platform for selling digital products — eBooks, courses, templates, audio, and more. It's built specifically for West African creators and supports GHS payments directly.

How to start: Create a free account at selar.co. Upload a simple eBook or template (make it on Canva). Set a price in GHS. Share your product link on WhatsApp and social media. Selar handles all payments and delivery automatically.

💰 **Potential:** A GHS 20 eBook sold to 100 people = GHS 2,000. No shipping, no stock, fully passive.
